INDUSTRIAL STRENGTH IMMACULATE RESULTS

ABOUT US

We provide engineered, high-capacity site services designed specifically for large-scale commercial and industrial environments, where safety and operational continuity are non-negotiable.

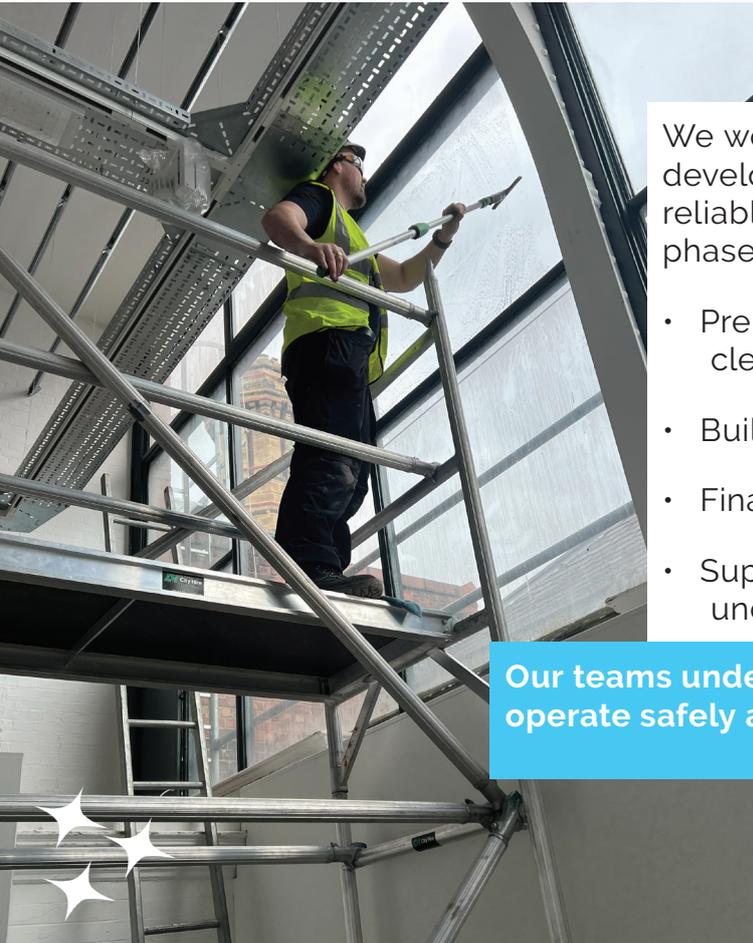

Beyond Cleaning, Delivering Compliance: Leveraging industrial-grade plant and rigorous UK compliance standards, we don't just clean—we enhance asset presentation and support your critical site handover timelines.

Certified Access. Guaranteed Safety. Every Transcend operative is trained for high-risk, high-access environments, fully compliant with H&S protocols, including CSCS, IPAF, PASMA, SSSTS/First Aid, and advanced COSHH standards.

Our structured Quality Assurance program includes mandatory site audits and transparent reporting, guaranteeing a consistent service delivery that minimizes disruption..

Lewis Travers
Director

Construction Builders & Sparkle Cleans

We work closely with construction builders, developers, and renovation contractors to deliver reliable and efficient services throughout all project phases, including:

- Pre-completion and post-completion sparkle cleans
- Builder's cleans during construction stages
- Final handover cleans to client specification
- Support services for domestic builders undertaking renovations or extensions

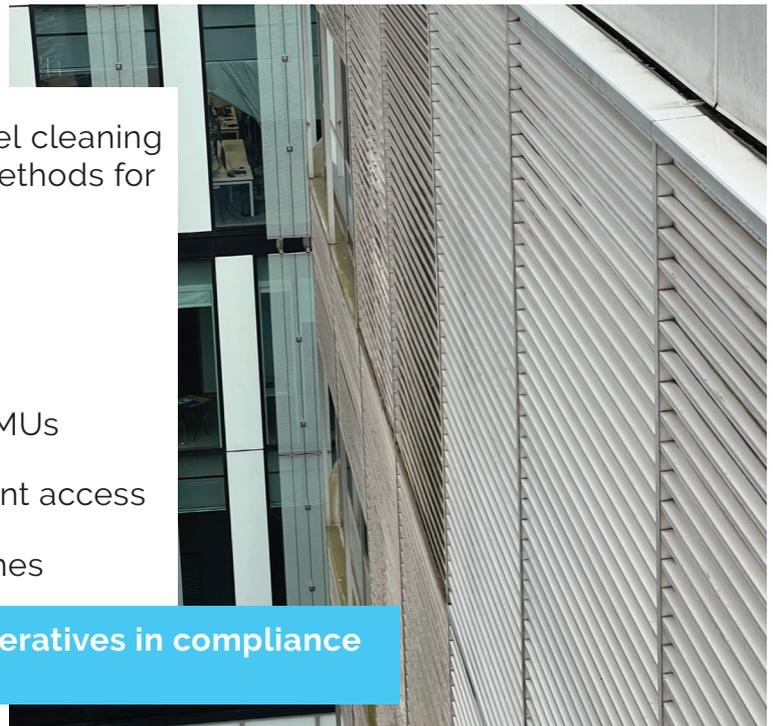

Our teams understand construction environments and operate safely and efficiently to meet programme deadlines.

Façade, Window & High-Level Cleaning

We provide specialist exterior and high-level cleaning services, utilising the appropriate access methods for each site:

- Façade and exterior building cleaning
- Internal and external window cleaning
- High-level cleaning using MEWPs and BMUs
- Long-reach pole systems for safe, efficient access
- Scheduled or ad-hoc cleaning programmes

All works are carried out by trained operatives in compliance with health and safety requirements.

Commercial Cleaning Services

We deliver ad-hoc and contract commercial cleaning services tailored to client needs, including:

- Deep cleans and periodic cleans
- High-level internal cleaning
- Exterior building and communal area cleaning
- Office, school, and commercial facility cleaning

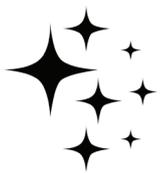

We can fully staff, manage, and maintain cleaning operations to ensure consistent standards and reliable service delivery.

Domestic Cleaning & Exterior Services

For private clients, we offer a full range of domestic cleaning services, including:

- Deep cleans for residential properties
- Post-renovation and post-extension cleans
- Exterior cleaning, including windows and building exteriors

These services are delivered with the same professional standards as our commercial work.

Labour Supply & Specialist Operatives

We also provide qualified site personnel to support construction and cleaning operations, including:

- Site labourers
- IPAF-certified MEWP operators

Our operatives integrate seamlessly into existing site teams and work to project-specific requirements
